

Hey, Dalton...

You can't scare us with a bad contract offer!

As Public Sector workers, we know how valuable we are to the people of Ontario. We make this province cleaner, healthier, safer and stronger. We work in 5,000 worksites in 276 communities, providing services people depend on - each and every day.

You told us we are dedicated, professional and efficient. You told us you want to keep the "best and brightest." You told us you are committed to supporting our work to the best of your ability.

So know this: You can't scare us with the bad offer you have on the negotiating table. You know it's unacceptable. You know we won't accept it.

It's time to move on. Let's get real about bargaining. Put the offer on the table your employees deserve. The one YOU said we deserve.

What we deserve... nothing less.
