

PUSH BACK THE PENSION GRAB

Pensions are important.

They're too important to the people of Ontario for Premier Dalton McGuinty to take risks with them. But, that's what he's doing.

McGuinty wants to give control of pension plans to corporations – the same ones that resist workers having pension plans in the first place.

Workers earned what's in their pension funds. And when they retire, they spend that money in their towns and cities.

Our pension funds are stable, well-run, and invested in Ontario.

McGuinty is moving too fast with pension reform. And he's not listening.

Ask your MPP to tell McGuinty that pension plans belong to the workers. We paid for them. Give us our say.
