

PROPOSED CHANGES TO SOCIAL ASSISTANCE WILL NOT LIFT PEOPLE WITH DISABILITIES OUT OF POVERTY.

Two recent reports* have released separate recommendations on social assistance. They include:

- ▶ Combining Ontario's two social assistance programs into one program
- ▶ Downloading the delivery of the program to municipalities
- ▶ Making some services only available on line
- ▶ Moving people with less severe disabilities off social assistance and on to an income top-up program
- ▶ Capping funding for social programs

**The reports are from the Social Assistance Review and retired banker Don Drummond.*

IF IMPLEMENTED, THESE CHANGES WILL:

- ▶ Remove long-term support for people with disabilities delivered by specially-trained staff
- ▶ Increase administration costs
- ▶ Reduce quality
- ▶ Lead to inconsistent delivery of social assistance across the province
- ▶ Further stigmatize people with disabilities

THESE CHANGES WILL NOT

REMOVE BARRIERS
AND INCREASE
OPPORTUNITY,

TWO GOALS OF ONTARIO'S POVERTY
REDUCTION STRATEGY.

Tell the McGuinty government what you think:

- ▶ The province must live up to its shared responsibility for people with disabilities as enshrined in the law, the ODSP Act, 1997
- ▶ Keep the Ontario Disability Support Program (ODSP) as a separate program
- ▶ Keep the ODSP provincially-run
